

Merlin, the Rare Bear

Our dear, sweet Merlin was definitely rare,
A teddy in the shape of a great grizzly bear.

Grizzlies leave deep prints where their big paws have stepped,
While teddies dry tears that their loved ones have wept.

Teddies can help your heart make a wish,
While grizzlies can scare the scales off a fish.

Scientists should study his unique DNA,
'Cause no one is as precious as our Merlin Jay.

In football, a jersey and helmet he'd wear,
To hide his soft eyes and curly brown hair.

But when around family he would let us see,
What a teddy a great grizzly bear could be.

His smile and laugh were beyond compare,
That's why all of us Olsens will miss our rare bear.

With Love and Big Hugs,
The Clark Olsen Family
